

Interested in working with a team? Would you ideally like to work part-time? Retiring and interested in scaling back your clinical work, but not altogether?.....Maybe we have the answer for you!

Walking Mobility Clinics is a group of multidisciplinary clinics with a focus on foot and lower extremity issues. We are always looking for enthusiastic new members interested in joining our team. With 14 clinics located around the GTA as well as Barrie, Kitchener and points in between, there are many opportunities for interested physicians.

Our extended team includes *physiatry, sports medicine, podologic medicine, pedorthics, and chiroprody* and, in some clinics, *physiotherapy* as well. We believe that a team approach is the best approach.

If you are interested in learning more about Walking Mobility Clinics and how you might fit within our team, please contact Ryan Robinson (President, WMC Inc) for further details (contact info below). We would be happy to put you in touch with one of our current physiatry team members.
